

Help patients take control of their health!

"My background is in emergency medicine and we see the end product of what the disease causes. So when I heard about the Ornish Lifestyle Medicine, and understood what the program does, I thought it would be such a great opportunity to get at the root of why people are getting sick and really try to make a difference in people's lives rather than putting a Band-Aid on the problem and passing them along."

Kevin Lum, MD
Ornish Lifestyle Medicine™ Medical Director

Life Changing

The Ornish Lifestyle Medicine program reverses the progression of heart disease by helping patients optimize four key areas of their life: nutrition, stress management, love and support, and fitness.

Optimally Structured

Over the course of 9 weeks, 18 four-hour sessions, participants experience the program within a consistent group of people who share each other's health histories and goals for the future. A dedicated, unchanging clinical team guides these participants through every step of the program—which translates into adherence and results.

$$18^{\text{total sessions}} \times 4^{\text{hours per session}} = 72^{\text{total hours}}$$

MANY OF YOUR PATIENTS MAY ALREADY QUALIFY!

Eligible patients have experienced one or more of the following criteria:

- Heart attack within the last 12 months
- Coronary artery bypass surgery (CABG)
- Current stable angina (chest pain)
- Heart valve repair or replacement
- Percutaneous transluminal coronary angioplasty or coronary stenting (PTCA/PCI)
- Heart or heart-lung transplant

Benefits patients can expect to achieve through Ornish Lifestyle Medicine:

- 6.3% decrease in blood pressure
- 18.8% decrease in total cholesterol
- 5.9% reduction in weight and Body Mass Index (BMI)
- 10.8% reduction in triglycerides
- 7.9% decrease in HbA1c
- 47.8% increase in exercise capacity

*These metrics are taken at baseline and after completion of the 72-hour program. Outcomes represent data reported to Sharecare (September 2015 - present)

For additional information about **Ho'ōla Pu'uwai** an Ornish Lifestyle Medicine and benefit coverage, call 808-244-4647.

Refer your patients to a healthier tomorrow!

Ornish Lifestyle Medicine Referral Form

Please complete and fax to: (808) 762-2923

Please include Lipid Panel, HbA1c, EKG, and last consultation note with medical history and current medications.

Please provide prescription for Lipid Panel and HbA1c **pre-program** (if no draw in the last 3 months) and **post-program**.
